HIS THIRD MILLION DOLLAR COMEDY

Two Women And Boy In A Car That Turns Turtle

In climbing a hill back of Harrisonville, Mrs. David Lewis, 1234 Oak street, found the brakes of the Oldsmobile touring car which she was driving would not work and losing control of the car, she, her small son, Harold and guest, Mrs. L. Lucas, of Cleveland, were carried with the car which twisted off the road and went over a fifteen foot bank and turned turtle.

Mrs. Lucas jumped out of the machine and righted the heavy car and could have been killed as they were going over the embankment and was entirely unhurt.

The strange part of the accident occurred in the fact that no one was hurt. Mrs. Lewis and son Harold, although under the machine when pulled out, were not hurt though badly shaken up. Men working in a quarry by the road

ten avenue, had as dinner guests recently, his sister, Mrs. Thomas Mc Mahon, of Trenton.

Andrew Hurreath, has resigned his position as foreman, of the gas producers at the steel plant, and will soon move to his farm near Harrisonville.

Mrs. George Hunsell, who has been visiting relatives in Melbourn, is the guest of relatives here, before returning to her home in Hamden.

Sergeant Robert Pool, who returned home from France several days ago, left today for a week's visit with relatives in Cincinnati.

Police Want More Money

HUNTINGTON, Aug. 1.—Dishonest law-abiding citizens and living expenses have advanced beyond their means. The police of the city are addressing a petition to the mayor and council asking that their wages be advanced from \$110 per month to \$120 per month, as our clothing and living have advanced beyond our means.

The petition reads: "We, the police of the city of Huntington, W. Va., do hereby ask for a petition to the mayor and council asking that their wages be advanced from \$110 per month to \$120 per month, as our clothing and living have advanced beyond our means."

NEW BOSTON HAPPENINGS

Mrs. Delia Kennedy and two children of Cincinnati, have returned home from a short visit with her parents, Mr. and Mrs. Randolph Smith of Gray Street. She was accompanied home by her sister, Miss Mary Smith, who will spend several weeks there.

Mrs. E. H. Mace, of Ohio avenue, who is ill, is improving.

Miss Elizabeth Garner, of Rhodes avenue, left Thursday for Dayton for a two week's visit with her sister, Mrs. George Brown.

Mrs. L. E. Robertson, of Rhodes avenue, has as guest, her brother, Corporal John Miles, who recently returned from overseas, where he spent ten months service with the 8th division.

He took part in several battles, and won the top second place, and came out without a scratch. He has taken a position with a coal mining company in Plymouth, W. Va.

Carl, the little son of Mr. and Mrs. Henry Cantrell, of Ohio avenue, had a narrow escape from death, a few days ago, when he fell in a barrel of coal tar, which was being used by Kelly Bros. in the paving of Stanton avenue. Fortunately, major Lawrence Finch, discovered his plight, and rescued him. He suffered no ill effects.

Frank Taylor, of Rhodes avenue, who had his right arm severely cut some time ago, at the Kelly Street bridge, where he is employed is getting along nicely.

Mr. and Mrs. Merrill Doherty and daughter, Alice, of Ohio avenue, moved to Sleem Station, recently and visited Mr. and Mrs. Frank Hall.

Mrs. Ernest Sherman and children, of Middletown, is visiting her father and mother, Rev. and Mrs. R. P. Porter, and brother-in-law and sister, Mr. and Mrs. Edward Zeek, of Galia avenue.

Mrs. Ernest Zeek, of Galia avenue, who has been very ill with pneumonia pneumonia is much improved.

George Finney and son, Eugene, of Niles, have returned home after a week's visit with the former brother-in-law and sister, Mr. and Mrs. Martin Treubach of Rhodes avenue.

Private Walter Culp who saw eleven months in France, with the 22nd T. Co. 78th Division, has arrived home. He received his honorable discharge at Camp Sherman.

Miss Minnie Duncan of South Portsmouth, is visiting her brother and sister-in-law, Mr. and Mrs. Arthur Duncan, of Rhodes avenue.

Mr. and Mrs. Arthur Doherty, of Rhodes Avenue, have returned from a short visit with friends at Wait's Station.

Mrs. Harry Cantrell, Mr. and Mrs. E. Ennsell and son Jack, Mr. and Mrs. W. W. Robinson, and daughter Emma, were guests recently of Mr. and Mrs. Henry Cantrell, of Ohio avenue.

Mrs. J. H. Mallott, and daughter, Mrs. Ross Skiggs, of Stanton Avenue are spending a week in Harrisonville.

Mrs. J. C. Baker, of Stanton Avenue is visiting her parents, Mr. and Mrs. A. D. Williams of Huntington, W. Va.

Mrs. A. B. Griffin, of Ohio Avenue, who has been ill with heart trouble is improving.

HOLDS CONGRESS CANNOT CONTINUE THE PHONE RATES

LANSING, MICH., August 1.—In an opinion rendered to the Michigan public utilities commission, Attorney General Grosbeck, declared congress has no authority to continue the telephone rates put into effect by Postmaster General Hutchinson for four months after the government relinquishes control of the wire companies. Such an act, the attorney general held, violated the state's right to control intra-state business.

Mr. Grosbeck ruled that the telephone rates in effect before the period of government operation began, should be declared in effect as of August 1. The commission had asked an opinion as to its authority to set aside the Harrison rates without a hearing.

"BAYER CROSS" ON GENUINE ASPIRIN

"Bayer Tablets of Aspirin" to be genuine must be marked with the safety "Bayer Cross." Always buy an unbroken Bayer package which contains proper directions to safely relieve headache, toothache, earache, neuralgia, colds and pain. Handy tin boxes of 12 tablets cost but a few cents at drug stores—larger packages also. Aspirin is the trade mark of Bayer Manufacture of Monacell, Germany.

Do These Incomes Attract You?

Not long ago there was published in a trade paper a table in which the salaries of office workers generally were given. In addition to stenographers and bookkeepers it listed the higher executive positions to which thousands of stenographers and bookkeepers have advanced. Do these salaries look good to you?

	Per Month
Stenographers (starting salaries)	\$ 60 to \$125
Stenographers (in two years)	\$ 75 to \$150
Bookkeepers (starting salaries)	\$ 75 to \$125
Bookkeepers (in two years)	\$ 90 to \$150
Accountants	\$150 to \$200
Certified Public Accountants	\$100 to \$200
Purchasing Agents	\$200 to \$300
Advertising Managers	\$200 to \$300
Salesmen	\$150 to \$1000
General Managers	\$200 to \$1500
General Managers	\$300 to no limit

These are average salaries paid to office workers. The range is wide because conditions in different sections of the country, and ability, vary. No attempt is made to tabulate the incomes of those who become the heads of business, as many do. Compare these incomes with those received by teachers, clerks and factory workers (whose average incomes are about \$7000 a year). Is there any doubt in your mind which field you should enter?

EVIDENCE TOO FLIMSY TO CONVICT STEAGALL, THE PROSECUTOR AVERS

"After making a full and complete investigation following the return by the grand jury of the Joseph H. Steagall indictment charging him with permitting a house to be kept as a house of ill-fame, I decided there was little or no evidence on which to rely in an effort to secure a conviction, and this prompted me to ask that the indictment be nolle." said Prosecutor George W. Sheppard yesterday in discussing the case.

The prosecutor refused to comment on the action of the grand jury in returning the indictment, but would discuss the source of evidence on which the bill was based.

"I just felt it was wasted effort and expense to go to trial on such flimsy evidence, and the case is closed so far as I am concerned," added the prosecutor.

Mr. Steagall declares that some sinister influence was behind the bringing of the indictment in order to bring him notoriety and in an effort to embarrass him.

Boy Falls From Roller Coaster; Leg Fractured Father Also Is Suffering From Leg Fracture

Boy, 3 year old son of Mr. and Mrs. Gilbert Hammer, 2128 Seventh street, sustained a fracture of his left leg yesterday in a fall from a roller coaster. The leg was broken between the knee and hip, and an odd incident in connection with the accident is the fact that the father of the tot is laid up with a fracture of his

right leg, which he sustained in an accident 3 weeks ago at the N. & W. terminals, where he is employed.

Mr. Hammer is now able to be about on crutches.

The Markets

NEW YORK STOCKS

NEW YORK, Aug. 1.—Stock market conditions, as indicated by yesterday's unexpected rise in call loans to 15 and 20 percent, were mainly responsible for the uncertain tone of the stock market at the opening of today's session. Gains ranging from large fractions to 2 points in oil, equipment, tobacco and shipping, were offset by reactions of greater extent among metals, metals and sundry specialties. United States Steel was moderately heavy and rails were only occasionally quoted at irregular changes in the first half hour.

The money situation continued to weigh upon the market during the first hour, but a pronounced change for the better set in before noon, when call loans were freely made at 10 to 15 percent. Early declines were met, however, in tobacco and motor specialties, while reactions extended from 2 to 6 points. Industrial favorites, notably United States Steel and Crucible Steel, led the rally with oil, leather and American Writing Paper preferred. Rally and shipping rose steadily and advanced on the demand for Southern Pacific, Texas and Pacific, Atlantic Gulf and American International.

Stocks were under intermittent pressure during the early period of today's session but made general improvement later on stabilization of call money rates. Sales approximated 1,000,000 shares. The closing was strong.

CHICAGO GRAIN AND PROVISIONS

CHICAGO, Aug. 1.—Dramatic new setbacks in the price of corn resulted today from general rains, hog market weakness and from agitation for government measures to reduce the cost of living. Opening quotations, which varied from 2 1/2 to 4 1/2 lower, with September 1.90 to 1.91 and December 1.92 to 1.93, were followed by only moderate rallies from initial bottom figures.

Oats were easier with corn. After opening 1/2 to 1 1/2 lower, including September at 77 1/2 to 78 1/2, the market sagged a little more and then recovered somewhat.

Provisions reflected the weakness of hogs and grain. Offerings, though, were light.

FORMER PORTSMOUTH POLICEMAN

ACCUSED OF HAVING TWO WIVES

Joseph Joans, a former Portsmouth policeman is held in the Waverly jail on a charge of violating a court order issued at Akron several months ago when he was ordered to pay his wife \$200 alimony when she was given a divorce. In the order he was instructed not to leave the city. Shortly afterwards he left Akron and started to work in Waverly where he was arrested last night by Sheriff Vignarus. He is being held for Sunday county authorities who were at noon notified of his capture. About the time of his arrest last night his wife Anna Joans arrived in the village and today said that she had investigated his life of the last several months and that she will return to Akron to prosecute him on a charge of elopement.

Girl's Parents Prevent Marriage
Gladys Cooper, 16, Twin Creek girl, was refused today by Judge Thomas to marry a boy who was also a ward of the court. The girl was 16 years old and the boy was 17. The girl's parents, Mr. and Mrs. Sylvester Cooper, of Twin Creek, to give their consent to the girl marrying Minor Riggs, 17, township young man, who was sent to jail yesterday for a month for contributing to the delinquency of the girl.

The couple were anxious to get married and Judge Gilliland had expected to suspend the prison sentence but the refusal of her parents to give their consent barred the plan.

Guard Will Resist
Judge Thomas will resist. Common Pleas court Saturday for the summer vacation and except for a special assignment on August 11, no court will be held until the new term which convenes on Sept. 11.

The court journal will be kept open, however, to take care of any important matters which may come up during the recess.

July Rainy Month

Today the river was at a stage of 5.5 and stationary. The rainfall during the month of July was unusually heavy, totalling 1.96 inches. In same month in 1918 the rainfall was 2.66.

On July 13 the river reached its lowest stage of the season, 5 feet. The highest stage for the month was on July 19, six days later, when the river showed a stage of 21.6 feet.

5,000 REDS CAPTURED BY DENIKINE

LONDON, August 1.—General Denikin, the Russian commander, has gained an important victory over the Bolsheviks and captured the town of Kamishin, on the Volga. Five thousand Bolsheviks, nine guns and large quantities of material were also taken. In making this announcement the war office says that possession of Kamishin gives General Denikin a firmer hold on the river and his main objective in the advance on Samara, threatening the Bolshevik command with destruction.

Motorman Not Losing Any Time

"I don't think anyone ever suffered more from stomach trouble and bloating than I have. I had to stop my run more than half the time and could get no help from prescriptions or medicine. One of my friends advised me to try 'Wanderer's Remedy,' which I found to be the greatest remedy ever found on the earth. I like and love it day since taking it. It is worth its weight in gold." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One does not require money refunded. Food and Drink, Fisher and Strick and Denikin are everywhere.

OPEN DOOR TO NATIONALS IN MEXICO

MEXICO CITY, August 1.—Mexico will hold open the door to nationals of all countries who can show that they are wholehearted friends of the United States and will not prove a disturbing element to the nation. President Venustiano Carranza told the congress today that he had received the approval of the assembly for a new law which, during the next few months, would open the door to the nationals of all countries who are friends of Mexico.

The president said that the law was in response to the request of the United States for the removal of the barrier to the nationals of all countries who are friends of Mexico.

SHOOTS AT A DOG AND WOUNDS BOY

Charles "Pete" Hicks, 15-year-old boy of Wheelersburg, suffered a bullet wound in his left thigh Thursday evening about 7:30 o'clock, when his father, Harry Fleming, fired at a supposed mad dog with a .22 calibre revolver.

Bulldog Shot Five Times, But Able To Run Away

Pete Hicks, of Wheelersburg, is now one that is "bad" a bulldog with more than one life, and his experience with the dog Thursday evening gives him good cause for his opinion. Hicks had a pet bulldog raised from a pup. Every evening when Hicks went home the dog came to the front gate to meet his master. Yesterday evening the dog came out as usual, but he turned away immediately and Hicks then noticed it was acting strangely. It went to the garage, and in order to prevent it from biting anyone, Hicks scented his gun and went to the garage to kill it. He found the dog in the throes of a fit and sent a bullet into its body to end its suffering. Hicks returned to the house and a few minutes later went back to the garage thinking the dog dead. It had disappeared, but was soon located in front of the Hartman House, where Hicks shot it once more. The dog did not die at once and Hicks decided his .22 calibre gun was too small, so he secured a .45 calibre from the Hartman household and sent a .45 bullet into the center of the dog's head. This time a number of boys and young men were on hand with guns and some fired at the dog.

Examiner's Report Covers Delinquent Fines

The following is the seventh installment of the examiner's report concerning the affairs at the Mayor's office. Other installments will appear in The Times from day to day.

DELINQUENT FINES

It was noted in the audit that, in many instances, defendants in the mayor's court were released from custody on their own promise to pay the fines assessed against them, and in other instances such release was affected without notation as to payment of fines, in such instances the fine being classed as delinquent. By reference to the preceding statements as to the disposition of fines assessed it will be noted that during the period audited the records disposed of the delinquent fines in city cases amounted to \$894.15, and in state cases \$2,920.50, while the fines of prisoners released on promise to pay amounted to \$3,537.70 in city cases, and \$4,181.78 in state cases. In other words, at the close of the audit September 30, 1919, there was standing uncollected on the mayor's books, covering a period of nineteen months, \$12,502.13, or an average monthly delinquency of \$658.60. The amount of the fines and costs collected in city and state cases during said period, aggregated \$14,180.07, or but \$1,637.44 more than the amount of such fines that remained uncollected. The amount of the delinquency as above set forth is substantial, indicating minimum effort put forth in the collection of fines assessed. In a comparatively few instances were fines marked "delinquent" or "promise to pay" collected. It would appear that when defendants were released there was a cessation of effort looking toward the enforcement of the judgment of the court. It is true that in certain instances the defendants on release subsequently paid the amount of their fines but in many others the fines have not been collected.

The release of a defendant on "promise to pay" is equivalent to a "conditional suspension" and if the conditions are not complied with, under an execution or capias the said defendant may again be brought into court and either be required to pay the amount of the fines assessed against them or be committed to prison in default thereof. It is advisable in all such cases, wherein there is a failure to pay fine after having been released on "promise to pay", in order that the most salutary results may be had and the proper deterrent effect realized, that the defendants be brought into court and required to comply with the judgment of the court.

We note of the opinion that had there been a more rigorous enforcement of the judgment of the court there would have been a consequent decrease in the number of prisoners coming before the court. A lax enforcement of the orders of the court soon becomes a matter of common knowledge, resulting in a lack of proper respect for such court by frequenters thereof and a consequent increase in the number of violators of the law.

DEPOSIT OF FINES

The records journal of the city auditor and the records of the county auditor disclose that the fines and forfeitures collected in the mayor's court have been deposited monthly.

Section 4750, General Code, provides:

"All fines and forfeitures collected by the mayor, or which in any manner come into his hands, and all moneys received by him in his official capacity, other than his fees, shall be by him paid into the treasury of the corporation weekly. At the first regular meeting of the council in each and every month, he shall submit a full statement of all such moneys received, from whom and for what purpose received and when paid over. All fines, penalties and forfeitures collected by him in state cases shall be by him paid over to the county treasury monthly."

The only compliance with the above provision of the law was the deposit in the county treasury monthly of the fines and forfeitures collected in state cases. While the mayor files with the auditor monthly a detailed statement of the collections in his court, yet he does not file with the council the report as required under the section quoted above. The mayor should file with the council monthly a report in the form and manner as provided in said section.

The provisions of Section 4750, General Code, are clear and deposits of

fines and forfeitures collected in city cases should be made by the mayor in accordance therewith.

The Attorney General has held in an opinion under date of March 13, 1912, as follows:

"An interest begins to run from the time at which the principal is due and payable. Interest will be chargeable against a collector of public revenues from the date which the statute prescribes for turning the money into the treasury. A public officer withholding moneys of parties dealing with such and receiving money from them, are presumed to know the law and interest would run from date of receipt of said moneys or when legally due. It is recommended that interest be chargeable in the case of public moneys so diverted, from the date of receipt of illegal payment or failure to turn over."

GOOD merchants and good merchandise are an inseparable combination.

That's why the good tire dealers in your town recommend and sell the new Gray Sidewall Firestone.

Most miles per dollar for you means most patronage for them.

Firestone TIRES
Most Miles per Dollar

Such is the holding of the Attorney General, and since the city is receiving two and one-fourth per cent on the deposit of its funds, the importance of the prompt deposit of its revenues is apparent.

While we shall return no findings at this time for interest on moneys so withheld, we advise that the law be complied with in future transactions in this nature, and the collections in the mayor's court be deposited weekly in the city treasury, or findings will not be barred in the future.

RECORDS AND ACCOUNTS.

The cases coming before the mayor's court are entered consecutively in dockets kept for the purpose. Ordinances and state cases are entered in separate dockets, the same being indexed by the clerk. As previously stated, it would appear that all cases were not docketed and in some instances the cases docketed were not indexed. There should be no failure to docket all cases coming before the mayor as this is required under the provisions of Section 4550, General Code, which stipulates that "he should keep a docket," meaning a docket of all cases coming before him. For ready reference there should be no neglect as to the proper indexing of all cases entered in the docket. Notation is made in the docket of the amount of fines and costs assessed, the amount of fines and costs paid and date of payment. We have advised that in procuring new dockets they should be so printed as to contain three cases on each page for city cases, and two cases of each page for state cases, except in cases that may be contested or that require the filing of a transcript. We have assumed that such dockets will be procured in the future. As dockets are expensive the arrangement above noted will effect a considerable saving to the city.

We have also advised the installation of a mayor's appearance docket for the clerk to enter therein each morning, before the convening of court, the names of the prisoners to appear before the mayor, together with offense charged and the amount of bond, if any, given by the prisoner. On the convening of court this docket should be before the mayor and as each defendant is tried and his case disposed of, the mayor should enter in the appearance docket the judgment of the court, said entry to be made in the mayor's hand writing. If the prisoner fails to appear and has given bond, the mayor should enter "bond forfeited."

There should be no failure on the part of the clerk to enter in this docket the names of all prisoners apprehended during the preceding twenty-four hours, nor should there be neglect upon the part of the mayor in properly and fully entering his judgment after hearing. This record has been ordered and will be installed in the mayor's court January 1, 1920.

There will also be installed on said date a record to be kept by the clerk man or sergeant of the police department, the same to indicate the name of the party arrested, the amount and kind of bond given, the money and chattels taken from a prisoner, and the signature of the mayor or the clerk to whom it may be turned over. If a recognizance is given the name of the party or parties signing will be noted. This record should be properly kept and the necessary data promptly entered therein.

A cash journal record is kept by the clerk, a separate record being kept for city and state cases.

In the cash book for state cases, and itemization is had between fines and costs but there has been no itemization of the mayor's and city's costs.

We would advise that there be procured at once the form of cash book as prescribed by the Bureau of Uniform Accounting, such a book may be procured from any of the established bank book houses.

The dockets indicate, for the period covered by this audit, 4375 cases docketed 2222 for the violation of the ordinances and 2055 for the violation of the statutes.

Watch The Little Pimples; They Are Nature's Warning

Cautiously and Disfiguring Signals of Bad Blood.
 Don't close your eyes to the warning which nature gives, when night-ly pimples appear on your face and other parts of the body.
 Not only are these pimples and spots disfiguring, but they lead to serious skin diseases that spread and have the most discomforting irritation and pain. Sometimes they fester, Eczema, boils, blisters, scaly eruptions and other annoyances that burn like flames of fire, and make you feel that your skin is ablaze.
 When these symptoms appear on any part of the body, take prompt steps to rid the blood of these disorders. And the one remedy which has no equal as a cleanser is S. S. S., the purely vegetable blood medicine, which has been on the market for more than fifty years. It is sold by druggists everywhere.
 If you are afflicted with any form of skin disease, do not expect to be cured by lotions, ointments, salves and other local remedies, as they can not possibly reach the source of the trouble, which is in the blood. Begin taking S. S. S. today, and write a complete history of your case to our chief medical adviser, who will give you special instructions without charge. When a Woman Needs a Hoover

Dear Married Men:

Think of it, in this hot weather—Climbing into cleaning togs and swathing her head like a mummy to dodge the dust—

And having to work harder with a broom than it would be rowing five miles up the river—

Getting all hot and tired and out of patience.

Fellows, if you had your wives' jobs at home these days, your faces would be red, your tempers white with heat, the air would be blue, and you'd see stars.

A woman needs a Hoover now above all times.

You pride yourself on being a good "go-getter"?

Go get 'er a Hoover today. Come here. We're easy on the pocketbook—give you lots of time to pay.

It's cool and easy to clean with a Hoover—for when you—

REFUGEES POURING INTO GERMAN TOWNS
BERLIN, August 1.—(By the Associated Press)—So many refugees

are arriving at every German city and village from territories taken from the former empire that communities in increasing numbers are forbidding their residence because of lack of buildings.

The government therefore on Thursday issued an order that all communities must accept refugees from foreign countries, and returning prisoners of war.

Mr. and Mrs. Ed Cunningham and Mrs. Emma Gilmer, of Canby's River, entertained today in honor of Mrs. Gilmer's sister and brother-in-law, Mr. and Mrs. Edward Nagel, of Norwood.

Among the guests present were Mrs. Mary Nagel and Mrs. Gus Kehler, of Waller street, Mrs. Charles Nagel, of Second street, and Mrs. Ben Riegel, of Second street.

Miss Mildred Spencer of Buena Vista is visiting relatives in Mayville, Ky. Mr. and Mrs. G. McFarland have returned to their home at Sandy Springs after a visit with relatives in Buena Vista.

Jacob Perry, of Buena Vista, was a visitor to Portsmouth Monday. Mrs. W. H. Williams, of Grandview avenue is visiting relatives and friends at Otway.

Miss Juanita Hazelbaker who is working for the Government, at Washington, D. C., is enjoying a visit with home folks at Otway.

Misses Cecil Levi and Mary Evans of Springfield have returned to their home after a visit with friends at Otway.

MAY WREST CONTROL FROM GERMANY

AMSTERDAM, Thursday, July 31.—(By the Associated Press)—The International trades union congress resumed its sessions today discussed rules for the new International. The constitution of a bureau, the appointment of officers and the question of the proportional representation of the different countries appear likely to arouse a lively debate, an endeavor to take control out of the hands of Germany which hitherto dominated the International, being in the making.

The draft of the new rules contains a proviso giving one vote for every quarter million workers represented, as against one for each million, as heretofore. The smaller nations would have a representative for any fraction of a quarter million workers.

Samuel Gompers, president of the American Federation of Labor, in his address, claimed to represent the Pan-American federation of 21 Republics. He declared he felt constrained to say that it was inadvisable, owing to the events of recent years, to group Spain with the Spanish speaking South American states as the Spanish delegate had proposed.

A regular conference of the International federation will be held every two years, the bureau to decide upon the place for holding the meeting.

ASKS TROOPS TO RESCUE DAUGHTER

BLUMFIELD, W. VA., August 1.—The government has been called on to send troops after the band of outlaws in hiding in the Flat Top mountains, it is learned here. Keena Albright, daughter of the fourteen-year-old Camp Creek girl, who is being held in captivity by the band, is reported to have made this request through the Bluefield recruiting office, who is said to have taken the matter up with the army authorities of Camp Lee, from where Manderville, Farley, alleged leader of the gang, is reported to have deserted.

The plan is for the Camp Lee authorities to secure the consent of the war department to make the expedition. Troops would go after Farley on the charge of desertion from the army, at the same time rounding up his band, of which a number of other deserters are alleged to be members.

Monthlongers of the Flat Top region say the territory is so rugged that it would possibly be necessary for a company of soldiers to make an expedition of two or three months duration.

Back From Auto Trip

W. A. Pepper, Dr. O. D. Tatle and Charles Tupper have returned from a 600 mile auto trip through Kentucky. They encountered some wretched roads and advise local people to stay away from Kentucky if they wish to enjoy real motoring. They visited Mayfield, Paris, Lexington, High Bridge, Louisville and many other points in Kentucky. "If anybody ever tells you there are some good roads in Kentucky he will surely have an argument on his hands," Mr. Tupper said today.

No Services After Sunday

After next Sunday, the stated services at the First Presbyterian church will be discontinued for a month, during the period the pastor is on his vacation, to be resumed Sept. 7th.

The Bible school and Christian Endeavor Society will be maintained as usual. As this is the last Sunday before vacation, the officers of the church are anxious that an extra effort be made by the congregation to be present.

The August List OF Victor Records

Forty-five carefully selected records, justifying the term so often applied to the Victor—"The Instrument of Infinite Variety."

The high quality of Victor records so consistently maintained for so many years has resulted in such a tremendous demand for their products that we find ourselves unable to secure in sufficient quantities to supply that demand.

There are many records which have not been available for months and, in order to furnish anything like an adequate number of such records, it became evident that some extraordinary step must be taken. The Victor Co., have, therefore, decided to devote their entire record manufacturing capacity for one month to filling such orders. By so doing, we hope to supply many of the records which have been virtually off the market for a long time.

That the music-loving public may not be without the assistance we try to give our purchasers of records by means of circulating copies of the monthly supplement, we are publishing this August issue as usual. In it we have listed, not new records, but records of excellent quality, which we believe to be generally available, and which we can conscientiously commend to the attention of the public.

For September we shall issue a supplement of new records in accordance with our established custom.

Severe Rain Storm Hits City

Portsmouth and vicinity were visited by one of the most severe rain storms of the season Thursday afternoon about three o'clock, the storm lasting for several hours. The rainfall was 2.38 inches.

The rain came down in torrents for several minutes during each rain, and paved streets were quickly flooded, the streets proving too small for the large volume of water. In many instances cars were flooded by water running over the street curbs and flooding the yards of houses.

Seaboard was also visited by the storm. Buena Vista, Leesville and Wheelersburg reported light rain. Dr. A. G. Stevens, South Webster, reported only enough rain to lay the dust on the roads. Wheelersburg, however, said the rain in their vicinity was just enough for the good of the crops. The storm extended out Seaboard to the Five Mile church, Leesville, getting only a shower. Buena Vista and Friendship had a hard rain, but no storm. Carey's River and Buena Vista were visited by the storm, the water in Carey's River rising rapidly and the water was over the Carey's River road in several places.

In the city residents in many sections reported streets flooded. At Third and Chillihothe streets water reached several inches deep, and for a while it was impossible to cross the street at the intersection.

At Market Road and Gallia street the streets were flooded and the backs of houses on the south side of Gallia street near Market Road were flooded.

South street, near Brown, was flooded for sometime after the rain. Buena Vista was filled with water during the storm and yards along that street were flooded. Fourteenth and Fifteenth streets were flooded, and children were engaged in wading in the deep water there for sometime.

New Bedford's sewers also proved too small for the water during the storm and many streets were flooded.

All fishes in the Columbia theatre were lost during the storm, and children were there to see Charlie Chaplin were frightened, but Manager Fred Thorne quieted them by giving them a talk.

pany during the worst part of the storm.

The second rain came just as the factories were out and many workers were drenched in the downpour.

Lightning Hits (R. and O. Freight House)
During the storm yesterday afternoon lightning hit the R. and O. freight station, the bolt striking a fuse box in the elevator shaft. Just a few minutes before Arthur Gerlach had stopped the elevator in order to prevent any great damage if lightning should hit the electrical equipment used in running the elevator. The fire companies answered an alarm to the freight house but employees had used chemicals to extinguish the fire.

Lightning Hits Hills The Casino
During the severe rain and electrical storm which swept this section Thursday afternoon a bolt of lightning struck the Casino in Millbrook park. One window was damaged and a small section of the roof was damaged. Necessary repairs have already been made.

Water stood more than a foot deep at Fourth and Bond streets yesterday afternoon. For a while it looked like water would seep into Mr. and Mrs. Abo Meyer's home on that corner. The water was so deep that several machines got stalled in it.

Lift off Corns!

Doesn't hurt a bit and Frezzone costs only a few cents.

With your fingers! You can lift off any hard corn, soft corn, or corn between the toes, and the hard-skin callosities from bottom of feet. A tiny bottle of "Frezzone" costs little at any drug store; apply a few drops upon the corn or callosities. Instantly it stops hurting, then shortly you lift that bothersome corn or callosities right off, root and all, without one bit of pain or soreness. Truly! No humbug!

career. Salisbury is Jim McKensie, a big-hearted, big-fisted lumber camp boss in this, his newest picture, "The Blinding Trail." The story of a great-souled man, who blinded in rescuing the daughter of his millionaire lumberman employer in a toboggan accident, is involved into marrying her. She is a superficial creature of the cities who finds in Salisbury her hero. But her cousin Alice sees in the big lumberman something greater—for she has the qualities that were meant to mate with his. How the problem of this triangle is worked out forms the dramatic center of the play which reaches a terrific climax in a battle between the blind McKensie and the man who has won the unstable affection of his wife. This is an unusually gripping picture with a background of beautiful snow scenes. See it, "Tangerine Lines in a Hostility," a two reel "Sunshine" comedy will also be on the bill.

At The Arcana Tonight

Four pictures from tonight's program at the popular Arcana. Kingsley Benedict is seen in "Lone Larry," a superb Western feature photograph. Benedict is the famous hero in the "York Horror" stories in pictures. "Wing Get a Divorce" is a comedy featuring Billie Mason and Edith Lyman, a dandy comedy pair. Chester Conklin furnishes the fun in "Up the Floo" a thousand foot screen. A Screen Magazine completes the show.

PORTSMOUTH YOUNG WOMAN WOULD RIVAL "OLD RIP" NOW

"I believe I could sleep for a week if no one called me and to think, before I took Trutona, I could hardly sleep at all." Miss Pearl Lewis, a well known Portsmouth young woman, who lives at 601 West Market street, said recently.

"Constipation, nervousness and a re-arrangement of the kidneys was the source of my troubles," she continued. "Invariably after eating any heavy food I would feel bloated. I was so restless I could hardly sleep at night. My kidneys pained me at times. "Trutona has done me SO much good, although I have been taking it for only several days. It is certainly a fine laxative, so mild and gentle in action and it has given me relief from my kidney trouble, too. My nerves are much steadier and, as I said, I believe I could sleep for a week now. The trouble I formerly had with my stomach is a thing of the past. I can eat anything I want to now and don't suffer the former bad after effects. I think Trutona is the best tonic I have ever taken and I'm sure it will help anyone troubled as I was."

Trutona is now being introduced and explained in Portsmouth at Wurster Brothers' drug store.

idea which she makes in a great patriotic work, purifies her spirit, until in a tense dramatic scene she saves the man she loves, and proves that a butterfly has a soul. This story of a woman's heart will appeal to every one and you will become an admirer of Miss Nesbit. If you are not already, a Lloyd comedy and a Traveogue complete the show.

Evelyn Nesbit, The Most Adorably Woman in the World, Has Powerful Photogenic in "I Want To Forget" at the Strand To night.

Evelyn Nesbit, known the world over as the former wife of Harry K. Thaw, has become an actress of renown, and will be seen at the Strand tonight in a play that has won great praise wherever shown, "I Want To Forget." In this picture, Miss Nesbit wins a veritable triumph. It tells the story of a butterfly woman who learns that the world is more than a pleasure ground. This she learns when she meets a man, who, unlike other men, asks no favors of her and gives her a clean, pure love.

The great love which this man arouses in her, as well as the sacrifice

FINE BAND AND AIRSHIP FOR FAIR

It was announced Friday by Secretary Caldwell, at the Seaside County fair, to be held at Lucasville, during the week of August 11 that the services of the Boy Scout Band of Jackson had been secured for, perhaps two days of the exhibition, Wednesday and Thursday. This band is said to be one of the best of its kind in the entire country, having just completed an engagement at Orlan Park, Columbus, and the Capital City papers spoke in the highest terms of praise concerning its ability. The leader of the band has just returned from overseas and as a director, his admirers predict he will soon be in the class of Sousa or Krigel.

Secretary Caldwell further stated that an airship would be a daily attraction at the grounds and passengers who desired to take a trip could do so upon the payment of \$5 per ride. The airship is one of the latest possible construction and approved by experts in every way.

CLAIM PRACTICE IS ILLEGAL

WASHINGTON, D. C., August 1.—The government has suffered material loss because contractors have obtained patents in their own names on devices worked out by men in the government service, according to a statement today by the department, which declares this practice illegal.

Department heads are directed to take steps to protect the government and also to aid the inventors in establishing their claims. It is pointed out that congress provided the means last year for legal remedy for any damage the inventors may have sustained.

PRIZE FOR AVIATORS
RIO JANEIRO, Wednesday, July 30. (By The Associated Press).—A prize of \$12,000 for the first Brazilian or Portuguese military aviator to fly between Lisbon and Rio Janeiro is proposed in a resolution introduced today in the chamber of deputies. The measure calls for the government to finance preparations for the flight up to an amount not exceeding \$150,000. It is provided that the flight shall not require more than two days.

The Portuguese government in June offered a prize of three cortos (approximately \$24,000) for the first Portuguese or Brazilian aviator to fly from Portugal to Brazil.

Full House Greet The Casino Stock Company

A crowded house, the porches full, gave a cosmopolitan air to the Millbrook Park Casino Thursday night, where "The Casino Star" won deserved applause. "The Little Play Had Done It," and they were there in a pen to be presented to the lucky holders of the prize tickets.

Over a hundred dollars' worth of merchandise was given away.

In a certain talk, J. H. Cooper, of the Cooper-Morris Stock Company, said that the first part of the coming week they would present "Common Clay," a play that has drawn its millions of spectators and impressed them with its truth and dramatic appeal.

The stock company is doing a big business and is giving much satisfaction. People are flocking to Millbrook with pleasurable anticipation, which is always realized. Miss Minto Everett is coming in for a lion's share of enthusiastic praise.

Cooper and Morris both are in the class of actors where one expects the best and gets what they are expecting. In the play being presented this week-end, Grace Leonard makes a striking success of the role she plays.

J. Mille Putman caused a stir in feminine hearts by appearing in a soldier's uniform in playing opposite the charming Maude Duval.

The most humorous character of the entire cast was that of John Brown, played by Fred Wagner.

Lella Hill as Mrs. Brown was as usual keen in her acting, which is always brimful of life.

Caldwell Cattle Win

When Herbert Caldwell, 13 year old son of Mr. and Mrs. Maurice Caldwell, returned to his home near Wakefield from the Wellston fair, he was smiling all over, carrying with him as did many ribbons awarded to the herd of Angus cattle, raised on his father's farm, and which he had entire control of at the fair. The Caldwell cattle swept the platter clean, carrying off every possible prize in their class. While exhibiting the cattle, Young Caldwell said three of the finest in the herd received a fancy price. The winning herd will be exhibited at the Seaside County fair week after next.

Mr. and Mrs. Floyd Samson had as guest Wednesday, Miss Vera Seymour of Portsmouth.

INDEPENDENT PAYMENTS ARE BEING MADE

PARIS, Thursday, July 31.—An official report of today's meeting of the chamber of deputies peace treaty commission says that Louis Klotz minister of finance, and Louis Loucheur, minister of reconstruction, were heard. M. Klotz set forth the complete conditions imposed on Germany to assure full restoration for damages to the persons and property of the allies and their assistants. Although the first payment of 20,000,000 marks in gold was not due until 1921, M. Klotz said, an independent sum would be limited over in the nature of products, payment in which form had already begun. M. Loucheur gave details of this method of payment which is in cost to Belgium and Italy up to forty millions tons yearly, tar, benzol, cotton, coloring materials, the brick and the labor of German and Austrian workers. The coal is in addition to that from the Saane Valley, which goes to France.

"SKINNY" LEFT FOR CATTLE RANCH

In contrast with the hot wave, Harry Reese, better known as "Skinny" Reese, left today for his cattle ranch in Canada, where the cattle have recently had their ears frozen—so he says. Mr. Reese said farewell to the balmy South, as he left the station carrying an overcoat and it was 103 in the shade.

Train Was Delayed

N. & W. passenger train No. 3 due at the local station at 3:40 a. m. was eight hours late today and left the station here about 12:30 o'clock. A special train was made up here to carry the Cincinnati bound passengers to their destination after they changed trains here.

An accident on the Portsmouth division caused the train to be delayed.

TUNNEL UNDER ENGLISH CHANNEL IS HELD FEASIBLE

PARIS, August 1.—The commission appointed by Albert Clavelle, minister of public works, to study the feasibility of constructing a tunnel under the English channel, has concluded its work and submitted a report which is favorable to the project. M. Clavelle has authorized the French company which holds the concession for the tunnel to proceed with fresh experiments with the latest planning machinery.

M. Clavelle has written to Stephen Poincaré, the foreign minister, suggesting the formation of a Franco-English commission to reach an agreement with a view to building the tunnel.

Myers Goes To Jail

William Myers, Scottdale brick-worker, was sent to jail for ten days to meditate by Judge Thomas late Thursday when he appeared before the court for contempt for failing to comply with an order to make weekly payments to his divorced wife for the support of his children.

The court told Myers, who has since remarried, that his children had first mortgage on his services instead of his second wife and that the mortgage would certainly be foreclosed if he neglected his children any longer.

Is Working Double Turn

The Washington Herald Dispatch Friday morning said: "Night operations are now the vogue at the Nicholson-Kendle furniture plant, in the company's endeavor to keep pace with the orders for furniture. The availability of orders for furniture is said to be unsurpassed in the history of the industry."

Patrick Whalen, a former local boy, is prominently identified with the shoe firm.

JOHN BLAKEMAN, STOCKDALE FARMER, BITTEN BY COPPERHEAD SNAKE; RUSHED HERE FOR TREATMENT

That danger lies in hiding the key to the front door of your house under a porch was convincingly shown this morning when John Blakeman, aged 40, a well known farmer, who resides near Stockdale was bitten on the right

Pure Enjoyment

For delightful flavor and the refreshing property of a nippy piquance that hasn't the least bit of "burn" to it, try Sheboygan Ginger Ale.

Besides being rarely good, Sheboygan is good for you—yes, and it is good for the children.

A healthful drink of genuine Jamaica ginger, extra fine syrup and water that is purest and best suited to the purpose, prepared under the most hygienic conditions imaginable.

"There's your grocer or druggist for a case. Served at leading restaurants, hotels, country and town clubs, cafes and on dining cars."

Bottled only by SHEBOYGAN BEVERAGE CO., Sheboygan, Wisconsin. Sheboygan Root Beer, Sarsaparilla, Lemon, Green Soda, or Orange Flavored, if you please. That's the way.

forefinger by a copperhead snake. Mr. Blakeman had placed his key under his porch and when he reached for it early this morning the snake sunk its fangs into his forefinger. The snake was immediately killed with a club and it measured five feet in length.

To prevent infection from the snake bite reaching his entire system Blakeman quickly bound his right arm lightly with a long piece of rope and then cut off the circulation in his forefinger by wrapping it five or six times with heavy string. It is believed this thoughtful bit of expediency saved Mr. Blakeman's life. He was placed in an automobile this morning and rushed to Dr. O. B. Mickelthwait's office on Lincoln street. When he arrived there his forefinger had already turned black.

The finger was split open back of the first joint, the wound was well antiseptized, and Dr. Mickelthwait said this morning he would keep it open for sometime so that it could be drained.

"Mr. Blakeman despite his age was very plucky and uttered no complaint when I split his finger. He did not whimper as he realized it was his only chance," Dr. Mickelthwait said today.

Snyder Pleads Guilty

William Snyder, New Boston young man, who was indicted by the recent grand jury on a charge of assault with intent to kill, appeared before Judge Thomas late Thursday and at the instance of Prosecutor Sheppard was allowed to plead guilty to assault and battery. The charge grew out of a fight with William Gile on May 4 and the prosecutor stated the evidence was conflicting as to who precipitated the trouble and this fact prompted him to recommend that the accused be allowed to plead guilty to the lesser offense.

The court then fined Snyder \$30 and cost and suspended the fine pending good behavior. The indictment against James Jones, a relative of Snyder's, who was mixed up in the same fight, was notified by the court at the instance of Prosecutor Sheppard, who stated that the woman had already been fined in Mayor Fitch's court for the offense.

KENOVA BOY DROWNS

HEARTBURN
or heaviness after meals are most annoying manifestations of acid-dyspepsia.

KI-MOIDS
pleasant to take, neutralize acidity and help restore normal digestion.

MADE BY SCOTT & BOWEN
MAKERS OF SCOTT'S EMULSION

KENOVA, W. Va., Aug. 1. Another addition to the growing list of the river's victims for this summer was made yesterday afternoon at 2:20 o'clock, when Ernest Adams, 11-year old son of James Adams of Kenova, was drowned at the Kenova ferry landing.

The lad was in bathing with a number of companions and with one or two others swam out into the river in the wake of a skiff. They were well out in the stream before he turned and started for the shore. The distance proved too great for his physical endurance and before he reached the shallows he sank.

The river was dragged, but it was

45 minutes before the body was recovered. Efforts to restore life by Dr. H. and others proved futile.

The body was viewed by Magistrate A. G. Brown, who pronounced death due to accidental drowning.

Hit By Engine

Leo Monroe, 61, employed as an oiler at the N. & W. terminals, East Portsmouth received multiple injuries about his legs and arms at 4 o'clock this morning when he was struck by a switch engine while he was engaged in "doping" an engine on another track.

The injured man after receiving medical attention was removed to his home at 403 Second street in an automobile. He was not seriously hurt. He was for years employed by Doerr Bros., Second street cigar and tobacco dealers. He had a close call from being killed.

THINGS SEEN IN PORTSMOUTH

Automobile on Fourth street stalled very close to a tree. Soldier and girl each with an ice cream cone walking up Sixth street in the peaceful sunshine and varying the sweets of their repast with kisses. Tractor running on Chillicothe street. The magnificent engines of war seemed dwarfed in peace time pursuits.

City street cleaning gang at work on Chillicothe street. Canteen worker buffing the faces of two little boys who were hanging around the depot. Not only soldiers of France are served with motherly care, but members of the street gang.

HIS NERVE FORCE SLOW TO RETURN AFTER THE "FLU"

But Nerv-Work Soon "Made It Again Every Day," Says James W. Kinneal

This well known resident of Greenburg, Pa., makes a statement here which is a heart of comforters from the effects of the "flu" which he had a few days ago to Greenburg's Nerv-Work drug.

Mr. J. Greenburg—I had a very severe attack of the "flu". It left me in a very nervous and weakened condition and I did not seem to be making any progress in regaining my nerve force and strength, until I took Nerv-Work. It has placed me on the way to recovery and I am gaining every day. I want to recommend it to others in the same condition.

JAMES W. KINNEAL, 213 Park St., Greenburg, Pa.

Nerv-Work, which is a specific, adds flesh, adds strength, strengthens the nerves, restores the liver, restores mental sleep, restores sick and nervous headache and other aches and pains, builds up rundown system. It does not do this for you, your doctor back, Fisher & Krutch sell Nerv-Work in Portsmouth.

Reds Show Real Class; Blank Boston Team In Double Bill

Emmet Reilly, O. S. L. Favorite, To Catch For Panhandles

Luque And Fisher In Splendid Form

Displaying real championship form the Reds blanked Boston twice yesterday, 5 to 0 and 2 to 0. Fisher and Luque pitched wonderful ball for the Boston men.

The Reds played rings around their opponents and the pennant chasers are only a few points behind the Giants' hitting and their fielding featured Thursday's double bill.

Giants Romp Over Pirates

PITTSBURGH, Aug. 1.—New York defeated Pittsburgh yesterday in the closing game of the series 5 to 2. Douglass kept the locals' hits scattered, and Southworth's triple with a man on base for the other, Carlson was hit hard in the first inning, two singles, a double and two triples scoring four runs. He settled down after that, and with the exception of the third inning was never in danger. A pass, shot of second, and a single scored the fifth run for the visitors. Max Carey made his first appearance at bat for ten weeks, when he hit for Carlson in the eighth and doubled to left.

ONE ENGLISH CHAMP IS LOSING PRESTIGE WHILE ANOTHER IS MAKING NAME FOR SELF

Jimmy Wilde, flyweight champion of England, and Joe Beckett, heavy weight king, snapped during a boxing show.

Although Jimmy Wilde, English flyweight champion, was given the referee's decision in his fight the other night with Pat Moore, U. S. boxer, the terrible punishment Moore handed the British lad cost Wilde considerable prestige. Many ring critics thought the least Moore should have had was a draw. Moore had previously licked Wilde in a four-round battle. Joe Beckett, new heavy champion, is being groomed for a battle with Dempsey following a rapid rise to fame in England. He has knocked out Bombarier Wells and Gedard, the Willard of the English heavies.

PENNY ANTE

FT. WORTH PLAYERS TO GET BONUS

FORT WORTH, TEX., August 1.—Shreveport fans, in the heat of their anger over the Texas League season being split and a new race started, when the Shreveport Gassers were ahead and likely to stay there, announced that they would show up the whole of Texas by taking both ends of the season, and there was talk in the Gasser town of raising a fund of \$5,000 that will be given the Panthers as a prize if they win the second half. Here if they did just that trick. Here of late, however, nothing has been heard about that bonus.

Now Fort Worth is out to show that money talks, for the fans of this town have started a movement to raise \$5,000 that will be given the Panthers as a prize if they win the second half. Here if they did just that trick. Here of late, however, nothing has been heard about that bonus.

REUTHER SEASON'S STAR SOUTHPAW

Walter Reuther of the Reds, is by all odds the star among National League southpaws this year, and more than that one of the season's sensations of any brand. His record is evidence of what Pat Moran can do in the way of handling pitchers. A wise coach of boxmen like Fred Mitchell, let him go and Cincinnati was about to pass him out when Moran appeared on the scene.

Reuther had a record of nine straight wins. One was taken away from him when a protest was allowed.

Game Next Week
Anderson vs. Criterion.
Horchow vs. Porta. D. G. Co.

Anderson's well-balanced team took a flustered hold on first place in the Thursday afternoon league yesterday when they handed a stunning defeat to the revamped Horchow by the top-scaled score of 12 to 4 on the Industrial League diamond.

The second game, which was to have been played by the Criterion and Portsmouth Dry Goods was not staged, as the lowering clouds started to weep big drops of rain just as the umpire, Theo. Pranharn, ordered the teams to take the field for their battle for second position in the league.

Manager Fred Hamilton, of Anderson, had his teammates working in top-notch form as usual. They repeated their performance of the last two weeks by again running up a big score on their opponents. Horchow proved as easy as the other two teams for the league leaders. His seams were run up by Anderson's against the Criterion and Portsmouth Dry Goods.

The winners did not hesitate in getting down to work and in their half of the first round scored three runs. Hill essayed to build for the occupants of the cellar, but did not last for one whole round. He waited Blair and Anderson to start with. Hamilton fanned but Fanning started the scoring by when he laid out a timely single. Davis died out but Mohl connected. Anderson and Fanning came across. Hill was jerked from the mound after the first three men, out of four, who faced him, got on the sacks. Gerlach took up the leading

and he was lucky to escape with only nine runs chalked up against him. It was not all Gerlach's fault for the support given him was everything but gill-edged. Errors and bad throws were so numerous in the early part of the game that Catcher Reuter threw down his glove in disgust.

Horchow scored one in the second and Manager Hamilton and Rostwick dropped by balls. Anderson came right back and scored two more, making the count 5 to 1. In the third after two were down, the winners put three across and duplicated the amount in the next round. Rostwick was pitching good ball, fanning six in the first three innings. In the sixth Gerlach obtained the first hit off Rostwick and scored on outs in the seventh Horchow started a rally and Hyland drove out a two-bagger that sent two runs across. Rostwick tightened and put an end to the rally and likewise the game. He was given the best of support all the way through, eight fly balls proving easy outs.

AUTO AND TRUCK COLLIDE; TWO HURT

A truck driven by Albert Vogel of 1133 Seabreeze street and a Maxwell touring car driven by a man who said his name was H. T. Jordan, collided on the Seabreeze street just north of the city at 8 o'clock last night. Mrs. Vogel and son, Howard, aged 3, who were riding in the truck were thrown out but luckily escaped with bruises. A front wheel of the truck was smashed and both front wheels of the touring car were demolished. The front axle was bent and a fender smashed.

According to Mr. Vogel the driver of the other machine tried to pass between two cars and this caused the accident. The Maxwell machine was taken to the Frichard garage for repairs.

Goes To Springfield.

Miss Grace Horv of Front street has left for Springfield where she has secured a good position.

Conley and Hayslip Acquitted

"Not Guilty" was the verdict of the jury in the case of Walter Hayslip and Edward Conley, New Boston young men, tried in Common Pleas court yesterday, on indictments charging them with attempting to break into the Home Liquor Co. store at New Boston on the night of May 20 last, the jury reporting to Judge Thomas shortly after 6 o'clock Thursday afternoon after deliberating 45 minutes.

The young men were indicted separately but by agreement they were tried at the same time. The defendants were represented by Attorney T. O. Beatty opposed by Prosecutor Sheppard for the state.

LESSON FOR AUGUST 3

CHRISTIAN WORSHIP.

LESSON TEXTS—Rev. 1:9-11; John 4:24; Matt. 23:1-5.
GOLDEN TEXT—God is a spirit, and they that worship him must worship him in spirit and in truth.—John 4:24.
ADDITIONAL MATERIAL—Matt. 23:1-5; Psalms 44 and 137.
PRIMARY TOPIC—Children praising God (Matt. 23:1-5).
JUNIOR TOPIC—Worship in God's house (Luke 2:28-32).
INTERMEDIATE TOPIC—Why worship and how.
SENIOR AND ADULT TOPIC—The nature and value of true worship.

1. What is Worship? (Rev. 1:9-11).

It is the attitude of the soul toward God, which recognizes him as the Supreme Being of the universe and reverently inclined toward his creatures. It is the outgoing of the affections toward him and the ascription of praise and adoration to him as the one from whom all blessings come, the one to whom all glory and honor should be given, the one who is all-wise and powerful.

2. Where to worship? (Rev. 1:9-11).

1. God (vs. 11, 12, cf. Matt. 4:10). Since in him we live, move and have our being (Acts 17:28), and from him every good and perfect gift cometh (James 1:17), we should worship and adore him.

2. Jesus Christ the Lamb (vs. 10). We should worship him because he is God and because he is the incarnate Son, linked himself with humanity and on the cross made an atonement for us and is now our high priest, through whom we have access to God (Eph. 1:21).

3. Qualifications for Acceptable Worship (John 4:24, 25).

1. This is a fine example of personal evangelism. Christ "must needs go through Samaria" to find this poor, sinful woman. He skillfully disclosed his identity to her. He knew the deep need of her soul, even the inward unrest which was hers while practicing sin. He made the point of contact by that which was uppermost in her mind, namely, water, and passed from the water of earthly to the water of everlasting life which was in himself (vs. 10). In order to worship God acceptably there must be—

1. Knowledge of Christ (vs. 10). Must know him as a prophet from God (vs. 19)—the one sent of God (Acts 7:37, cf. Deut. 18:15) to make known to lost men the way to God. Must know him as the Messiah—the one anointed of God to save lost men (John 4:42).

2. A new nature (vs. 23, 24). Only the regenerated can worship God in spirit. Jesus declared "that which is born of the flesh is flesh, and that which is born of the spirit is spirit" (John 3:6). "Except a man be born of God" (John 3:3). The natural man has not the capacity to "see" God, therefore he cannot worship him. God is spirit; therefore only the one whose spirit has been quickened can enter into fellowship with him by worship.

3. A sanctified life (Eph. 1:22). The life is sanctified by the Spirit (1 Peter 1:2); through obedience to the Word of God (John 17:17).

4. Faith in God (Eph. 1:18, cf. 10:22). Pretended worship without vitalized faith is an abomination to God.

5. Men of every nation and kindred (Rev. 7:9). God is the God of all nations.

IV. Where to worship.

1. In secret (Matt. 6:5, 6). The soul shut up with God, with the world and its cares shut out, really worships. Every Christian ought to have a secret chamber.

2. In the assembly (Heb. 10:24, 25). While the private prayer is of first importance, there is value in joint worship with fellow Christians which should not be overlooked. The actions of others are helpful in conducting a frame of mind for worship.

3. Everywhere (John 4:20-24). God is the Omnipresent Spirit, therefore wherever there is a person whose nature is spiritual he can worship. Christianity is unlike every other religion in that without ritual or temple the individual may worship God anywhere. John as in the assembly at Ephesus, or Paul in the Roman prison as well as with the beloved saints at Philippi.

To Those Who Seek.
It profits little to know Christ himself after the flesh; but he gives his spirit to good men that searcheth the deep things of God.—John Smith.

How Can One Forget?
God living in us, and with us, and under us! How then can a man forget God?

The True Christian.

He that can apprehend and consider vice with all her baits and seeming pleasures, and yet abstain, and yet distinguish, and yet prefer that which is truly better, he is the true worshiper for Christ.—John Milton.

THE QUESTION COUNTRY WIDE

WITH his usual ability and always his effort to be fair, ex-President William H. Taft, discusses an immediately acute question under the head of "The Negro Problem." Here is in part what he has to say:

"Racial prejudice is a fact which cannot be gotten out of the way by merely pointing out its injustice. It must be worn away by the logic of events, by education, by stimulation of the moral sense and by the operation of economic causes and enlightened selfishness. Frontal attacks on it by argument rarely, if ever, succeed. On the other hand, its dying embers may be easily blown into a flame again by evil-minded agitators or blind extremists."

"These racial truths are relevant to some of the present phases of the Negro question in this country. The historian who correctly judges progress by centuries and half centuries must conclude that the Negro Race in the last half century, since it emerged from slavery, has made great progress. Its illiteracy has been reduced from ninety per cent to less than fifty per cent. Negro farmers have become owners of cotton plantations and farms throughout the South, so that a very considerable part of the agricultural products of the South is the result of their investment and industry. The vocational education of the Negroes begun with General Armstrong's experiment at Hampton, is extending its beneficent influence among the colored boys and girls of that section, with a most encouraging stimulus to better Negro community conditions. Leaders of organized labor are wisely admitting Negro artisans to their ranks and the advantages of equality of dealing with employers. But progress of this sort only more clearly discloses that unjust obstructions to the pursuit of happiness by the colored race still remains."

"Education has fitted a number of Negroes for leadership of their race. They are divided into two classes. The first class resembles so deeply the unfairness, which racial prejudice leads to that they seek to end it by direct protest and frontal attacks upon it and its consequences are disastrous."

"The second class of Negro leaders are far wiser than the first. They are conscious that the return to civil life of 300,000 or 400,000 Negro soldiers, even though aflame with indignation and sense of injustice and ingratitude, can, if it results in ebullitions of violence, only lead ultimately to worse things for the colored race and involve in an outbreak among the whites of racial prejudice and fear, forcible measures of resistance, causing injury to many innocent and unoffending members of the colored race. They are wise enough and noble enough and self-restrained enough clearly to see that the way to ameliorate conditions is not by direct frontal attacks of resentment or revenge but by the education of their people and a stimulation of them to greater industry and economic success, so that it will be the enlightened selfish policy of the controllers of public opinion in the South to welcome the industrial development of the race for the benefit of the whole South, white and black."

"Half the force of what President Taft has to say is lost because he falls into a common folly, that of treating 'The Negro Problem' as if it existed solely at what he chooses to designate as the South. Our insistency, and common and notorious truth and that establishes the correctness of the contention, is the condition, call it problem, if he will, is not limited by sectional lines. Prejudice is just as virulent and violent against the Negro in the north as it is in the south, both so called. Lynching is more common in the old slavery states because the Negroes are most numerous there. Had more frequently committed the one crime, that every sense of honor and decency cries out for vengeance against. Race riots and slaughters are more common in the old free states. No explanation for this occurs to us."

"The deeper sense of the nation has before it a hard and serious task in adjusting the relations of the white and colored races to a basis of harmony and justice, made all the more so because those who are quickest to volunteer their advice and aid threaten, persist in denouncing it as the crime of a particular section whereas it is the wrong of the entire nation."

AND WE'LL BE A SIGHT

WE see by The Times that the powers are going to dispose of the surplus army supplies through the postmasters. Now won't "our" large and portly person be a sight, arrayed in a long white groceryman's apron, carving off a slice of bacon and weighing out a pound of sugar?

Ye, gods, and little fishes!

Cash down before goods are banded out, and the same price to all. What can I do for you, lady?

GRADUALLY ADMITTING IT

GERMANY is getting to think better and clearer of her responsibility for the war. That much, at least, may be inferred from the fact, that one of her most prominent figures in the present government, arose in the national assembly and made two pertinent, and startling recommendations to the nation. In the first place he declared the treaty must be accepted in action as it was in writing. Germany should set herself to complying with its terms and go to work to recover from the loss and prostration due to war. Further, he declared that the proposed trial of the ex-Kaiser was just and proper. This statement raised a tremendous uproar, though those who approved the speaker's utterances seemed to have the best of it.

In direct connection with this incident it is a notable observation that since terms of peace were signed, disorder and proclaimed revolution have largely subsided in Germany. Possibly, the most we heard thereof before peace was concluded was fictitious and designed for outside consumption only, still cessation thereof is hopeful in itself and along with the speeches in the national assembly, a hopeful indication that the German people, at least, see the necessity and good sense of making the best of conditions as they are.

THE WISHING PLANE

I guess you thought something might happen to Jack and Jane, and their friends down in the mine, where we left them yesterday. Well, nothing happened. They watched the miners at work for a long time. Every one of the men who came near enough to Jack and Jane to see them in the dim light of the lantern, smiled at them, and most of the men said, "Hello, little folks, aren't you lost?"

The children wondered how the men could be so happy, working all day in the dark, damp mine. "My, but, it must take an awful lot of scrubbing to get cleaned up when they come out of the mine," said Jack to Captain Brave.

Both children were glad to get out into the sunlight again when the guide put them on the elevator and rang a bell which told the men at the engine away up above, to haul them out of the mine.

Jane's first question when they stood on top of the mine again was, "Where do all the miners live, and where do their children play?"

Captain Brave pointed out to her and Jack the little wooden shacks along the sides of the hills around the mine. The little places looked more like sheds than houses, though the children thought they were the houses and peeked into one through the open door they saw two small children playing on the floor and, sitting in a high chair, poking his chubby feet into its mouth, was a tiny baby.

Ladytear looked about to find the mother, but she was nowhere to be seen.

"She probably had to leave the little ones all alone while she carried some lunch to their father at the mine," said the captain. The children noticed that the coal dust had settled all over the inside of the house, and even the baby's face was smeared with it.

As Jack and Jane walked away, Jane said to Ladytear:

"After this when we're using coal back home in Make-Believe town to keep us warm or cook good things, I'm going to think of the miners and their little children. I won't mind busy days so much and I'll wish that these boys and girls could have as many nice things as Jack and I have."

"And so will I," said Jack.

The thoughtfulness of the two children made Ladytear happy.

"I was wondering if my little folks knew how well they were taken care of back home and how much cause they had to be very happy and gay," she said. But, really truly, she hadn't been wondering at all, because Jack and Jane had shown all the time during the trip that they realized how lucky they were in many ways.

The children and their friends spent that night in a village in the mining district, and bright and early the next day started for Scotland.

New - York - Day - By - Day

BY
O. O. MCINTYRE

NEW YORK, August 1.—Thoughts while walking around Manhattan:

Soft job that fellow has. Nothing to do but smoke an endless succession of cigars in a show window. There goes Fluke Janis and her adopted son into the foyer of the Globe. Hello! Big electric sign advertises ice cream soda. Once advertised a Scotch high ball.

An actor with a plaid Derby! More klaw watching a group of street diggers. Benign, frock-coated man, hands clasped behind him owns a chain of tough saloons. Clara Tice, the village artist, sketching atop a bus.

Theater advertisements: "Gentlemen need not wear their coats in here."

Tom Healy announces dinner served at tables on ice covered floor. Gotta do something in cafes now with booze gone. Well, Brinkley going to a Chaplin movie. They say Chaplin's hair is turning white. Worried about keeping up his clowning.

Big line waiting to buy tickets to see the latest Shimmy dancer. Wonder what a Shimmy dancer reads! There's Broadway's Federal Church. Looks like the front of a restaurant. What does an undertaker do with his evenings? There's Bruno Lessing, the

writer. Gets a big salary furnishing ideas to comic artists.

Fellow in the closed car with a silk hat is a big financier. Goes in for spiritualism. Everybody seems to be taking that up. Back home we used to think spiritualists were queer. Now they represent an advanced thought. Still I don't care if I never hear a table rap.

Lots of Japanese in town. Spend loads of money. Hear they're wild over American dancing. Ted Lewis, the jazz king, had an offer to go to Shanghai and then to Tokyo. Five thousand a week. I'd go anywhere for that. Even to Brooklyn. Snappy little French coffee house. Lunch 30 cents. I'll try it.

The big hotels have created a new job. It is known as Telephone Booth Watchman. More people lose valuables in telephone booths than any other place. In one hotel alone bags and purses with jewels and money worth more than \$45,000 were found in a single week. It is said that many times the women leave hotel booths in a state of agitation after a telephone conversation and have walked a block or so before they discover their loss. Perhaps two or three have used the booth by that time and unless an honest person finds whatever is left, it is never recovered. Now each booth is given the once over by the watchman the instant any one leaves and before any one else enters.

It was a home going crowd swaying back and forth on the rhythmically lurching Fifth Avenue bus. A fine old school gentleman was taking great pains to point out the sites of real interest to the two distinctly commonplace gum-chewing young girls. Doubtless they were strangers in New York and had asked him some questions.

"The Astor Library there reminds me," the old gentleman was saying, pointing with a quizzically carved gold-headed stick to the handsome stone pile guarded by the much maligned lions, "that Mr. Astor was jeered at back in 1836 for building the old Astor House as far uptown as Chambers street. But later—dear me, there's my car!" With a courtly bow he hastened out and the two girls resumed their conversation.

"I planned to have a permanent wave, you know. But Gert says not to. She says Ed is a fish faced mutt and—"

After all the old gentleman and the two girls were strangers in a great city.

INDUSTRIAL CRISIS IN ENGLAND

Lenine Plans To Retire

STOCKHOLM, Aug. 1.—(By the Associated Press)—The Svenska Dagbladet is informed by persons closely connected with the Russian soviet government that Nikolai Lenine, the premier, intends to begin a drastic change of policy and then retire. One condition of his retirement will be that Leon Trotsky, the Bolshevik war minister, be left in command of the Red army.

At recently held meetings of the soviet commissaries, the newspaper's informants say, the question of giving power into the hands of other socialistic parties was earnestly discussed, but Lenine declared that the best way to check reaction, as represented by Admiral Kolchak, head of the anti-Bolshevik government at Omsk, would be to drop power for a time in order to prove that no other party was able to reorganize Russia.

This, Lenine, contended, would strengthen the Bolshevik and enable them to resume power.

Lenine's views were shared by George Tchitcherik, the commissary for foreign affairs, M. Stuchek, commissary of justice, and Professor P. Derzinski, commissary of the interior.

NO RELIEF FROM HIGH PRICES FORECAST BY FEDERAL RESERVE BOARD

WASHINGTON, D. C., August 1.—No relief from present high prices is forecast in the federal reserve board's monthly review of business conditions, issued today, which notes that July "increases in many lines."

In general, the review said, "there is a disposition to accept present price levels and to expect a continuation of the prevailing level for some time to come."

In many districts high prices have not served to check demand, but the possibility of obtaining goods was found to be of greater moment to the buyers than the price level. On the other hand, the board said, the "very great" price increases, which have taken place in certain lines have made buyers more cautious, care being taken not to increase money stocks acquired at the present price level for fear a decline might occur.

Continued high prices, along with constant growth in trade, both wholesale and retail, and increased activity in some of the basic industries, sustained confidence in the industrial situation and led to expansion in many lines.

Almost the only complaints heard concern shortage of raw materials and, in a few districts, labor troubles, although a majority of the districts report normal labor conditions.

Instead of a fear of unemployment, which had been expressed during the early part of the year, the board said, "the reports received manifest the lack of an impending shortage of labor."

Conditions in the Cleveland federal reserve district were given as follows: "Continued optimism is based upon favorable conditions prevailing in the coal industry and in agriculture, although the present high prices for wheat is a disturbing element."

ASKS TROOPS TO RESCUE DAUGHTER

BLUFFTON, W. VA., August 1.—The government has been called on to send troops after the band of outlaws in hiding in the Flat Top mountains, it is learned here. Kenna Moore, father of the four-year-old Camp Creek girl, who is being held in captivity by the band, is reported to have made this request through the Blue field recruiting office, who is said to have taken the matter up with the army authorities of Camp Lee, from where Munderville Parley, alleged leader of the gang, is reported to have deserted.

The plan is for the Camp Lee authorities to secure the consent of the war department to make the expedition. Troops would go after Parley on the charge of desertion from the army, at the same time rounding up his band, of which a number of other deserters are alleged to be members.

Mountaineers of the Flat Top region say the territory is so rugged that it would be necessary for a company of soldiers to make an expedition of two or three months duration.

ROYAL ASSENT GIVEN
LONDON, August 1.—Royal assent has been given to the German peace treaty and the Anglo-French treaty.

"IT WAS HEAVENLY," SAYS BRIDE IN UNIQUE WEDDING IN SKY

Commander Archie Miller of Hazelhurst field congratulating first couple married in airplane by wireless telephone. Left to right: Chaplain Alexander Wooten, Lieut. George Burgess, the groom; Miss Milly K. Schaefer, the bride; Miss Doris Schob, bridesmaid, and Commander Miller. Behind Burgess is the best man.

"It was heavenly," says the bride, describing the first marriage ever conducted under similar conditions. It took place recently over Hazelhurst field during the New York police field day. Lieut. George Burgess was the groom and Miss Milly K. Schaefer the bride. They went up in one airplane. The chaplain ascended in a second plane. While the planes soared a mile above the ground the ceremony was conducted by wireless. The bridesmaid, on the ground below, heard the words by wireless phone, too. The best man piloted the chaplain's plane during the wedding.

COMMITTEE TO CONDUCT PROBE OF HIGH COST

WASHINGTON, D. C., August 1.—A committee to conduct an investigation of the high cost of living and to report to President Wilson was appointed at the conference yesterday of cabinet officers at the office of Attorney General Palmer.

The committee, which was headed by Attorney General Palmer, was also composed of Secretary of War D. H. Hughes, Secretary of the Navy J. D. Long, Secretary of the Interior L. B. Nichols, Secretary of Commerce W. C. Clegg, Secretary of Agriculture J. H. Baughman, and Secretary of Labor J. H. Clegg.

With the cost of living problem put squarely up to them as the chief factor in the social unrest throughout the country, officials of the government, executive and legislative, today were pondering the situation in an effort to devise some action that would result in lowering the price of the necessities of life particularly food.

While cabinet officers and heads of various governmental agencies, who were summoned to a conference by Attorney General Palmer late yesterday to take a survey of the problem with a view of devising what could be done by the law enforcement machinery to curb profiteering, were seeking facts to submit at a further conference next week, both the senate and house were considering various relief measures.

Discussions, propounding investigations from various angles have been introduced, or are in prospect, while some search for specific action.

One of those would restrict the quantity of food to stop speculation in food on exchanges, another would reduce the volume of currency in circulation as a means of checking prices, and still another would have the federal government buy up the surplus of foodstuffs at the government's guarantee, the best to be made up by the government.

Reds Show Real Class; Blank Boston Team In Double Bill

Emmet Reilly, O. S. L. Favorite, To Catch For Panhandles

Luque And Fisher In Splendid Form

Displaying real championship form the Reds blanked Boston twice yesterday, 5 to 0 and 2 to 0. Fisher and Luque pitched wonderful ball for the Moran men.

The Reds played rings around their opponents and the Boston players are only a few points behind the Giants. Groh's hitting and Reilly's fielding featured Thursday's double bill.

Giants Romp Over Pirates

PITTSBURGH, Aug. 1.—New York defeated Pittsburgh yesterday in the closing game of the series 5 to 2. Douglass kept the "beast" hits scattered. Doyle's error being responsible for one run and Southworth's triple with a man on base for the other. Carlson was hit hard in the first inning, two singles, a double and two triples scoring four runs. He walked down after that, and with the exception of the third inning was never in danger. A pass, street of crowd, and a single scored the fifth run for the visitors. Max Carey made his first appearance at bat for ten weeks, when he hit for Carlson in the eighth and doubled to left.

THE QUESTION COUNTRY WIDE

WITH his usual amiability and always his effort to be fair, ex-President William H. Taft, discusses an immediately acute question under the head of "The Negro Problem." Here is in part what he has to say:

"Racial prejudice is a fact which cannot be gotten out of the way by merely pointing out its injustice. It must be worn away by the logic of events, by education, by stimulation of the moral sense and by the operation of economic causes and enlightened selfishness. Fervent attacks on it by argument rarely, if ever, succeed. On the other hand, its dying embers may be easily blown into a flame again by evil-minded agitators or blind extremists."

"These social truths are relevant to some of the present phases of the Negro question in this country. The historian who correctly judges progress by centuries and half centuries must conclude that the Negro Race in the last half century, since it emerged from slavery, has made great progress. Its illiteracy has been reduced from ninety per cent to less than fifty per cent. Negro farmers have become owners of cotton plantations and farms throughout the South, so that a very considerable part of the agricultural products of the South is the result of their investment and industry. The vocational education of the Negroes begun with General Armstrong's experiment at Hampton, is extending its beneficent influence among the colored boys and girls of that section, with a most encouraging stimulus to better Negro community conditions. Leaders of organized labor are wisely admitting Negro artisans to their ranks and the advantages of equality of dealing with employers. But progress of this sort only more clearly discloses that unjust obstructions to the pursuit of happiness by the colored race still remains."

"Education has fitted a number of Negroes for leadership of their race. They are divided into two classes. The first class seems so deeply the unfairness which racial prejudice leads to that they seek to end it by direct protest and frontal attacks upon it and its consequences are disastrous."

"The second class of Negro leaders are far wiser than the first. They are conscious that the return to civil life of 300,000 or 400,000 Negro soldiers, even though aflame with indignation and sense of injustice and ingratitude, can, if it results in exhibitions of violence, only lead ultimately to worse things for the colored race, and involve in an outburst among the whites of racial prejudice and fear, forcible measures of resistance, causing injury to many innocent and unoffending members of the colored race. They are wise enough and noble enough and self-restrained enough clearly to see that the way to ameliorate conditions is not by direct frontal attacks of resentment or revenge but by the education of their people and a stimulation of them to greater industry and economic success, so that it shall be the enlightened selfish policy of the controllers of public opinion in the South to welcome the industrial development of the race for the benefit of the whole South, white and black."

"Half the force of what President Taft has to say is lost because he falls into a common folly, that of treating 'The Negro Problem' as if it existed solely at what he chooses to designate as the South. Our insistency, add common and notorious truth and fact establishes the correctness of the contention, is the condition, not a problem, if he will, is not limited by sectional lines. Prejudice is just as virulent and violent against the Negro in the north as it is in the south, both so called. Lynching is more common in the old slavery states because the Negroes are more numerous therein and more frequently commit the one crime, that every sense of honor and decency cries out for vengeance against. Race riots and slaughters are more common in the old free states. No explanation for this occurs to us."

"The sober sense of the nation has before it a hard and serious task in adjusting the relations of the white and colored races to a basis of harmony and justice, made all the more so because those who are quickest to volunteer their advice and aid thereto, persist in discussing it as the crime of a particular section whereas it is the wrong of the entire nation."

AND WE'LL BE A SIGHT

WITNESS by The Times that the powers are going to disburse of the surplus army supplies through the postmasters. Now won't "our" large and portly person be a sight, arrayed in a long white groceryman's apron, carving off a slice of ham and weighing out a pound of sugar?

Yes, gods and little fishes!

With down before goods are handed out, and the same price to all. What can I do for you, lady?

GRADUALLY ADMITTING IT

GERMANY is getting to think better and clearer of her responsibility for the war. That much, at least, may be inferred from the fact, that one of her most prominent figures in the present government, arose in the national assembly and made two pertinent and startling recommendations to the nation. In the first place he declared the treaty must be accepted in action as it was in writing. Germany should set herself to complying with its terms and go to work to recover from the loss and prostration due to war. Further, he declared that the proposed trial of the ex-kaiser was just and proper. This statement raised a tremendous uproar, though those who approved the speaker's utterances seemed to have the best of it.

In direct connection with this incident it is a notable observation that since terms of peace were signed disorder and proclaimed revolution have largely subsided in Germany. Possibly, the most we heard thereof before peace was concluded was fiction and designed for outside consumption only. Still cessation thereof is hopeful in itself and along with the speeches in the national assembly, a hopeful indication that the German people, at least, see the necessity and good sense of making the best of conditions as they are.

THE WISHING PLANE

I guess you thought something might happen to Jack and Jane and their friends down in the mine, where we left them yesterday. Well, nothing happened. They watched the miners at work for a long time. Every one of the men who came near enough to Jack and Jane to see them in the dim light of the lanterns, saluted them, and most of the men said, "Hello, little fella, aren't you lost?"

The children wondered how the men could be so happy, working all day in the dark, damp mine. "My, but I must take an awful lot of scrambling to get changed up when they come out of the mine," said Jack to Captain Brave.

Captain Brave pointed out to her and Jack the little wooden shack along the sides of the hills around the mine. The little places looked more like sheds than houses, thought the children. They walked up to the houses and peeked into one. Through the open door they saw two small children playing on the floor and, sitting in a high chair, peering its chubby feet into its mouth, was a tiny baby. Ladydear looked about to find the mother, but she was nowhere to be seen.

"She probably had to leave the little ones all alone while she carried some lunch to their father at the mine," said the captain. The children noticed that the coal dust had settled all over the inside of the house, and even the baby's face was smeared with it.

As Jack and Jane walked away, Jane said to Ladydear: "After this when we're using coal Jack home in Muck-Bellows town to keep us warm or cook good things. I'm going to think of the miners and their little children. I won't mind nasty days so much and I'll wish that these boys and girls could have as many nice things as Jack and I have."

"And so will I," said Jack.

The thoughtfulness of the two children made Ladydear happy.

"I was wondering if my little folks knew how well they were taken care of back home and how much easier they had to be very happy and gay," she said. But, really truly, she hadn't been wondering at all, because Jack and Jane had shown all the time during the trip that they realized how lucky they were in many ways.

The children and their friends spent that night in a village in the mining district, and bright and early the next day started for Scotland.

Both children were glad to get out into the fresh air, when the guide put them on the elevator, and using a bell with the red man at the end, they went up above to find them out of the mine.

Jane's first question when they stood on top of the mine and again was, "Where do all the miners live, and where do their children play?"

"Boss, my number says please give her a needle for this egg."

The stockbroker smiled. "Why," he said, "you can get two needles for an egg."

"No boss," continued the darky, "my number don't want no two needles; the says, please give me de change in cheese."—Harper's Magazine.

Up-to-Date. Full many a time with Miranda. I've danced.

And now I desire her as wife; I wish, as I've been by her steps, so entranced.

"To have and to hold," her through life!

Inevitable. Mrs. Wilson—Then the wedding was not altogether a success?

Mrs. Wilson—No; the groom's mother died before the bride's mother. It was considered very bad form.

The Ready Explanation. Every thing in the dear old village seemed the same to Giles after his absence of four years as a prisoner of war in Germany. The old church, the village pump, the ducks on the green, the old men smoking their pipes while

the women talked—it was so restful after the treatment he had received at the hands of the enemy.

Suddenly he missed something. "Where's Hodge's other windmill?" he asked in surprise. "I can see only one windmill and there used to be two."

The native gazed thoughtfully around as to verify the statement. Then he said slowly: "They pulled one down. There wasn't enough wind for two of 'em."—London Tit Bits.

CRAWFORD ANDERSON WINS TENNIS CHAMPIONSHIP OF SEATTLE, WASHINGTON

Crawford Anderson, who lost his first tennis training on courts in Portsmouth, was the city tennis champion of Seattle recently after an exciting struggle. He and Maxwell Smith also won the doubles championship.

Mr. Anderson is the secretary and treasurer of The Western Dry Goods company, of which Eugene Anderson, formerly of this city, is president. He makes his home with his mother, Mrs. Anna W. Anderson, of Seattle.

Concerning the tournament, the Seattle Post-Intelligencer, a leading paper of that section, says:

"Crawford Anderson won the tennis championship of the city yesterday when he emerged victor over former Junior Grifin, of California, in a great seven-set match. The scores were 6-3, 3-6, 4-1, 2-6, 6-4.

"The match was a battle all the way, with first one in the lead and then the other, until the final set, when Anderson got a run on his opponent and ran up five straight games.

"Griffin, Grifin boasted. The Californian managed to take the next game, in 5-7, and the score 5-1, and leaving Anderson one game from the title.

"Both turned themselves for a struggle in the seventh game, and

Griffin's sensational fight to stage a defeat brought rounds of applause from the gallery. After the serve each would reach to the net and there a battle would well take place, with the volleys coming so fast that the eye could hardly keep pace with the ball. Anderson had the edge on Griffin in a sprint to the net first and after many city and Northwest tourists reaching this position could not believe it. This always been a contest judged. After a spectacular rally, importors in the net game. Although which the ball passed back and forth, there no smashing drive, his own number of times, Anderson made a rally to volley anything at his own swift shot, which just tipped the lapped players who have the edge and fell dead on the other side for the line in driving. He plays a riot point with more like the leaves over steel with his shots down the line. Many a point was won by this in Griffin's backhand.

"Griffin put up a game field for time, but could not keep pace with his first playing and was the point defeat after one of the most contests seen in Seattle for years.

"Maxwell Smith and Crawford Anderson took the match doubles title, which they won by the Marshall-Lewis extreme combination, 6-0, 6-0, 6-1. The first set was won by the winners, and the second a little so, 6-4, 6-0, though the you

Snyder Pleads Guilty

William Snyder, New Boston young man, who was indicted by the town grand jury on a charge of assault with intent to kill, appeared before Judge Thomas into Thursday and the balance of Prosecutor's office was allowed to plan and carry out the strategy. The strategy was to take a field with William's father, Mr. J. and the prosecutor asked the victim was conflicting as much as prosecutor

Crawford Anderson is a veteran of many city and Northwest tournaments and has always been a contender for

players in the net game. Although he has no banking drive, his accuracy is likely to volley anything at the net. His players who have the edge are Lin, in defense. He plays a nice change and places well, using long strokes with his shots down the side lines. Many a point was won yesterday in Britain's backland.

To bring put up a game field for the girls, but could not keep pace with them in fast playing and was forced to a straight defeat after one of the best points ever seen in Seattle for some time.

M. Wood-Saidy and Crawford Anderson, the male's doubles team, which they beat at the Marshall Allotment "burne combination," 6-0, 6-4, 6-0, 1. The first set was easy for the seniors, and the second started the same way, though the youngsters trailed and ran the score to 6-4. Then I won it as the only one to go to Allen of his partner, they win the match by a 6-4 count. The fourth set was a serious affair in which Anderson and Maud-Saidy finally ended on 6-6, 6-4.
